

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

You are about to purchase a product that is not simple and may be difficult to understand

Product

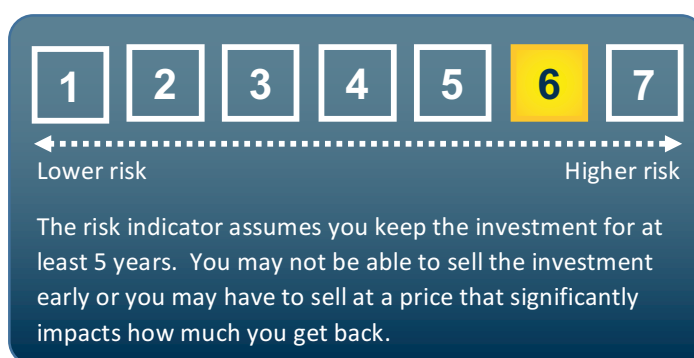

The Jenson SEIS and EIS Fund is managed by Thompson Taraz Managers Limited (www.thompsontaraz.co.uk). Thompson Taraz Managers Limited is authorised and regulated by the Financial Conduct Authority. This document has been produced on 1 January 2018.

What is this product?

Type	An Alternative Investment Fund consisting of a number of investment management agreements between investors and Thompson Taraz Managers Limited, managed in parallel.
Objectives	<p>The Jenson SEIS and EIS Fund aims to target both new companies which are developing innovative and disruptive technologies, and to provide follow on funding to its existing portfolio companies, helping them to exploit and commercialise their proven business models</p> <p>By investing in the Fund, UK taxpayers may be able to benefit from the reliefs provided by the Enterprise Investment Scheme (EIS) or Seed Enterprise Investment Scheme (SEIS). The Fund's offering allows investors to choose whether they want to utilise SEIS or EIS or to split their investment across both. Generally, EIS monies will be invested into later stage companies, benefitting from greater maturity, whilst SEIS monies will be invested into early stage companies, attracting greater up-front tax reliefs.</p>
Intended retail investor	The Fund is limited to retail investors who have been advised by an authorised financial advisor or who are certified High Net Worth or self-certified Sophisticated Investors and who have successfully completed the application process in full.

What are the risks and what could I get in return?

Risk Indicator

This investment offers no capital protection against market risk and therefore you can lose all the capital you invest (but you do not bear the risk of incurring additional financial obligations or commitments).

Performance Scenarios (excluding tax reliefs)	1 Year*	3 Years*	5 Years (minimum recommended hold period)
Unfavourable scenario			
What you might get back after costs	91%*	72%*	52%
Average return each year	-8.7%	-9.5%	-9.7%
Moderate scenario			
What you might get back after costs	91%*	89%*	136%
Average return each year	-8.7%	-3.7%	7.2%
Favourable scenario			
What you might get back after costs	91%*	89%*	185%
Average return each year	-8.7%	-3.7%	17.0%

* This product cannot be easily realised. This means it is difficult to estimate how much you would get back if you attempt to realise your investment early. You will either be unable to realise your investment early or you will have to pay high costs or make a large loss if you do so.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor. The figures do not take into account your personal tax situation, which may also affect how much you get back. Your maximum loss would be that you will lose all your investment.

What happens if Thompson Taraz Managers Limited is unable to pay?

Thompson Taraz Managers Limited is covered by the Financial Services Compensation Scheme. In the event that Thompson Taraz Managers Limited cannot meet its liabilities, the scheme will cover eligible claimants for up to £50,000. Please note, the scheme does not cover a failure of the Fund. For more information see www.fscs.org.uk.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest £10,000. The figures are estimates and may change in the future.

Costs over time Moderate scenario (£10,000)	If you exit your investment after 1 Year*	If you exit your investment after 3 Years*	If you sell your investment after 5 Years
Total Costs	£866	£1,097	£1,746
Impact on return (RIY) per year	-8.7%	-3.7%	-3.5%

* This product cannot be easily realised. This means it is difficult to estimate how much you would get back if you attempt to realise your investment early. You will either be unable to realise your investment early or you will have to pay high costs or make a large loss if you do so.

All costs above are paid by Investee Companies which should not therefore reduce the tax relief available to Investors. These costs will, however, reduce the value of Investors' holdings as the Investee Companies will be required to pay out these amounts at the point of investment. The returns shown in the Performance Scenarios above are after costs but exclude the effect of tax reliefs.

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period; and
- the meaning of the different cost categories.

This table shows the impact on return per year (Moderate Scenario)

One-off costs	Entry costs	-1.5%	The impact of the costs you pay when entering your investment.
Ongoing costs	Other ongoing costs	-1.2%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance fees	-3.1%	The impact of the performance fee. We take these from your investment if the product makes a return above the amount invested. The performance fee is 30% (including VAT) of the return over the amount invested.

How long should I hold it and can I take money out early?

Required minimum holding period: 3 Years

The required minimum holding period is 3 years although the recommended minimum hold period is 5 years and this product cannot be easily realised. This means it is difficult to estimate how much you would get back if you attempt to realise your investment early. You will either be unable to realise your investment early or you will have to pay high costs or make a large loss if you do so.

How can I complain?

You can complain initially to Thompson Taraz Managers Limited by contacting the Compliance Officer using the details listed on the [FCA register](#) or [our website](#). If you remain dissatisfied with our service and you are an eligible complainant, you may ask the Financial Ombudsman Service to consider your complaint. For more information see www.financial-ombudsman.org.uk.

Other relevant information

Please read the Information Memorandum for the fund carefully, specifically the Risk Factors set out on pages 28-30, before making your investment decision and confirm with your independent financial adviser that you have the expertise, experience and knowledge to properly understand the risks of participating in the Fund.

Prospective Investors should note that the value of an investment can fall as well as rise and investors may not get back the amount originally invested. Therefore, you should only make investments in the fund that you can afford to lose without having any significant impact on your overall financial position or commitments.

Taxation levels, bases and reliefs may change if the law changes and the tax benefits of products will vary according to your personal circumstances; independent advice should therefore be sought. Please note it cannot be guaranteed that companies invested in by the fund will achieve or retain EIS qualifying status or that Investors will qualify for the tax reliefs available under these schemes.
